## OUR WEAK SIDE.

Richard Harding Davis in an article in Collier's Weekly entitled "Whose Lake is the Pacific," demonstrates what risks we are taking with our insular possessions, national pride and world standing, and in a brief, crisp recitation of facts, shows the need for a greater navy and the fortification of Manila and Guam as well as Honolulu. He predicates his conclusion on the alleged fact that Japan is only waiting her opportunity to put to the test the question of whether she or the United States is to be mistress of the Pacific. His reasoning is not altogether convincing on this point, but he discloses a weakness on our western shores that Captain Hobson and other naval experts have been striving to beat into the national intellect.

Guam and the Philippines are now practically coaling stations. The writer epigrammatically says "Coaling stations and dry docks are to the man-of-war what food and drink are to the army."

San Francisco is 6,100 miles from Manila. Japan is 1,750 miles from Manila. Our 17 big vessels are on the Atlantic ocean, while our menace is in the Pacific, where Japan has 11 and we have none. Our ships now would have to sail around Cape Horn to reach Manila.

Japan could send her fleet to Manila and Guam, subject them, and lay siege to our scattered land force in the Philippines and when our ships sailed out there, their bottoms fouled with the long voyage and their coal bunkers almost exhausted, the Japanese fleet could take its time to whipping them. That we have more money and better soldiers and sailors than Japan would avail us nothing for a dozen years. We would be whipped all that time and our Pacific trade cut off. In a dozen years our fleets would go through the same long voyage and same humiliating experience. We couldn't send a land force, because the Japanese navy would destroy the transports as fast as they arrived.

Whatever may be Japan's belligerent intentions toward us, she undoubtedly intends to fight us for the oriental trade and she is taxing high everything the white man ears to keep Caucasians out of Japan. She fostered the Chinese boycott. She would close every port of the Orient to us.

War is expensive. Even the danger of war is demoralizing. The best way to keep the peace is to be prepared for war. Mr. Davis points out the fact that in order to maintain our standing in the Pacific the distance we must travel must be counterbalanced by a navy comparing with the Japanese navy in the ratio of four to three.

The heavy national debt Japan bears as the result of the Russian war and her present small resources, compared with those of the United States, hold her in check; but Japan, highly centralized as she is, works with every detail of her government and domestic affairs in harmony with the purposes of the mikado. The ex-

perience of Russia should be a lesson to us in the advantage of being prepared. Japan will never strike when we are prepared.

You were not looking for a reception, were you, Governor Cummins? Well, that's the Kentucky idea. Kentucky hospitality is as free and as easily invoked as the air around you. We don't ask anything in return. We just naturally open our doors to visitors, because we want you to have a good time while you are here and a good opinion of Kentucky when you go—but, if you must make some return, you might leave just a little of that western spirit in Paducah.

There is something characteristically Philadelphian about the demonstration over the remains of James Wilson, a signer of the declaration of independence, 108 years after he died. Exhumation in this instance was perfectly safe, but 108 years from now we trust, another generation will have the charity not to dig after corpses in the present stratum of Pennsylvania political affairs.

Mayor Dempsey of Cincinnati said before he had long been mayor an attempt was made to bribe him. He repeated his story to the grand jury, giving names and dates; but that body "finds that no attempt to bribe the said mayor has been made." Evidently fifteen men could not be found in Cincinnati, who could conceive of a man being offered a bribe and not accepting it.

The ship subsidy bill as now drawn seems to be perfectly square, and designed for a patriotic object; but we believe the Mississippi valley congressmen will be perfectly justified in seeing that the river improvement appropriation is sufficiently enlarged before the New Yorkers get through a few millions to promote the ocean trade.

Mississippi's new constitution fixes the fourth Thursday instead of the last Thursday in November as a day of thanksgiving. That gives the people of that state a chance to celebrate two Thanksgivings—one for Vardaman and the other for all the minor blessings which they share with the rest of the United States.

Paducah is not unusually slow, but that Iowa delegation can testify that The Sun is the first thing up in Paducah. A Sun reporter constituted a committee of one to meet the first boat.

Milwaukee health officers are worried because citizens are throwing all their sauer kraut on the city dump. Perhaps it isn't ripe enough.

The Pullman Car company declared a dividend of \$26,000,000. Wonder if the Pullman porters can beat that.

## COLONIAL DAYS

RECALLED BY DECORATION OF PUBLIC LIBRARY.

Children's Room Is Filled With Interested Auditors This Afternoon.

To a crowded room of attentive little auditors, Miss Aline Bagby talked for an hour this afternoon in the children's room at the Carnegie library. Her subject was "The First Thanksgiving."

The room was decorated in colonial style. There was not a single thing lacking to carry out the idea. On a table in the front of the room, a winter scene was represented, with the primitive log cabin of our Pilgrim fathers, an Indian wigwam, cedar trees, and snow. Scattered in artistic profusion over the room were corn stalks, wheat bundles and pumpkins.

A spinning wheel over a hundred years old attracted attention, as did numerous Indian relics. On the walls of the room, were the flags of all nations, and several charts showing scenes from the early days.

Miss Bagby, and Miss McBroom decorated the room. The log cabin, a perfect representation, was made by the janitor.

Don't neglect your cough.

Statistics show that in New-York City alone over 200 people die every week from consumption.

And most of these consumptives might be living now if they had not neglected the warning cough.

You know how quickly Scott's Emulsion enables you to throw off a cough or cold.

\$4,000,000 REMAINS.

Don't Know What to Do With Relief Fund.

San Francisco, Nov. 24.—With \$4,000,000 on hand to be devoted to the refugees, it is stated that the relief committee has held several executive meetings to determine what shall be done with this money. It is claimed that the directors of the relief work find that the need for relief has passed, except such cases as can be taken care of by the regular charity organizations. Allan Pollok, it is said, is in favor of establishing a \$2,000,000 hospital with a part of the fund which Herbert B. Law would turn over to the regular charity organizations. As the wishes of the donors of the relief funds may have to be consulted, no decision has as yet been arrived at by the relief committee.

## SNOW IN DESERT.

Fall for the First Time in Forty Years.

San Bernardino, Cal., Nov. 24.—For the first time in 40 years snow has fallen throughout the desert region. In the mountains near here the ground is covered to a depth of five feet. All traffic is suspended and several mining camps are snow-bound. Snow has fallen in low levels at the foot hills everywhere, damaging the orange crop.

YOU DON'T HAVE TO WAIT!  
Every dose makes you feel better. Lax-Pol keeps you whole inside right. Sold on the money-back plan everywhere. Price 50c. per box.

## Relief for Rheumatism.

These damp days are hard on people afflicted with rheumatism, and relief is sought in all sorts of remedies. There is no doubt in the minds of people who have suffered with the dread disease and those who have studied it closely that probably more relief can be secured from the Osteopathic treatment than any other.

Of course, some chronic cases won't yield to any treatment, but instances of cases of seven and eight years' standing yielding to three months' treatments can be cited. If you are suffering of rheumatism, I should like to discuss your case with you, examine you and tell you what I can do for you. With the dry hot air treatment that I use with osteopathy I am having very gratifying success with people you know well. Dr. G. B. Froage, 516 Broadway. Phone 1497.
